

We are Mark and Debbie Taylor in London, Ont. and we have one of Paddy's "Whee-Doo's".

First of all, I will comment on the breeder. Paddy is a fine gentleman who has been a great help from the first time we met him to current day. My wife has very bad skin allergies and we tried for the better part of two years to find a breed that was suitable for us to have. The first time I talked to Paddy, he gave his honest opinion that he wasn't sure his dogs would be suitable but if we wanted, we could take a drive and find out. Once there he was very patient and very thorough with all of our questions and concerns. We found Paddy was very knowledgeable and has continued to be an excellent resource for any of our concerns.

Now Tara, she is very healthy, extremely intelligent and has a very pleasant personality. Tara slept through the night on her third day and was house trained in less than two weeks. We got Tara in January and she can sit, stay, fetch, roll over, speak loudly and softly when asked, and this Tuesday evening, my daughter taught her to "play dead" in just four tries. We are very impressed with how quickly she learns new things. I truly believe that she can learn anything if we just take the time to teach her. I am not sure where you are located, but if you would like to see Tara, we would be glad to arrange a visit.

I should mention that when we first brought Tara home, my wife did have a mild reaction to her but within a couple of weeks she had built a tolerance and can now sit with Tara for hours with no reaction.

All in all, we couldn't be happier. Our family is now complete.
